**NEON MATERIAL HANDLING, INC.  
TRAIN-THE-TRAINER  
LIFT TRUCK OPERATOR SAFETY TRAINING PROGRAM**

Neon provides a comprehensive Train-the-Trainer lift truck operator training class designed for the employer who desires to provide in-house safety training for lift truck operators.

The course is designed to achieve the goals of preparing the employer for conducting training that:

- Is site specific,
- Covers all content subject matter required by OSHA Standard 1910.178, and
- Provides the trainer with ready-to-use presentation materials for conducting training sessions for employees.

The program will include:

- A site survey of the employer’s facility to determine the equipment and site-specific content (with photos as necessary) to be included,
- Attendance by the employer’s trainer at one of our Tuesday safety training classes,
- A PowerPoint presentation that is used by the trainer for conducting training sessions for employees.
- True/False and Multiple Choice exam covering the training material.
- Practical Driving evaluation form.
- A training session with the employer to review all training content and to lay out the practical training exercise for employees.

Fee Schedule:           **\$510.00 per employer student**

Additional training materials may be ordered as follows.
